Loree Version 1901.5

3.3. Environment

1. Environment	Desktop web-based tool for Windows and Mac PCs / Laptops
2. Supported Browsers	Safari (Mac only), Chrome, Firefox
3. Pre-Requisites	Valid Instructure-Canvas license Kaltura License

4. Release Details

4.1 Release Features

S. No	Features / Enhancements	Purpose
1	Kaltura Integration	Kaltura is a media library which has been integrated into Loree. This integration aids in accessing media files in Kaltura through Loree. Kaltura will now appear as an option in the video source selection within Loree. This feature will be 'switched ON' based on the client's request
2	Accessibility Check	Enforcing web standards for the content created using Loree. With incorporation of accessibility check, appropriate prompts will be displayed wherever standards are not met by the users when pages are designed through Loree. This includes types where these checks are implemented includes Text, image, video, table.
3	Template Categories	An additional category attribute has now been added to the templates. This allows the users to filter templates through categories and also search for specific templates within a category
4	User Guide	The initial version of the user guide has been created and will be available for use. The user guide is available at https://crystaldelta.atlassian.net/wiki/spaces/WPBEUD/pages/23691423/Loree+User+Guide
