3. Introduction

3.1. Purpose & Scope

This release is focuses on key enhancements to the **Loree** which were requested by the various canvas instructors. As these enhancements add to the robustness and flexibility of the product, the features have been incorporated as generic product features rather than as an exclusive release. For more details on the product features that forms a part of this release, refer section 4

3.2. Release Version

Loree Version 1902.4

3.3. Environment

1. Environment	Desktop web-based tool for Windows and Mac PCs / Laptops
2. Supported Browsers	Safari (Mac only), Chrome, Firefox
3. Pre-Requisites	Valid Instructure-Canvas license

4. Release Details

4.1 Release Features

S. No	Features / Enhancements	Purpose
1	Managing shared Templates	In order to sharing the templates, now the admins can share templates from one department to other departments and they can manage (Create, share and delete) it. Also, Course designers have the full access to manage (Create, share and delete) templates within their department.
2	Update Style manager	To make more flexibility and responsive on style manager, controls have been changed from tab view to dropdown view.
3	UI changes on Default Blocks	To make more responsive on default blocks, default parameter values have been changed. So, when user uses the default blocks to create contents, it will be more responsive.
4	User Guide	The initial version of the user guide has been created and will be available for use. The user guide is available at https://crystaldelta.atlassian.net/wiki/spaces/WPBEUD/pages/23691423/Loree+User+Guide
