3.3. Environment

1.	**Environment**	Desktop web-based tool for Windows and Mac PCs / Laptops
2.	**Supported Browsers**	Safari (Mac only), Chrome, Firefox
3.	**Pre-Requisites**	Valid Instructure-Canvas license

4. Release Details

4.1 Release Features

S. No	Features / Enhancements	Purpose
1	Logo	We introduced new logo for our product which will be reflected from this release onwards.
2	Brand Name	The brand name WYSIWYG Page Builder has been renamed as **"Loree".** From this release onwards new brand logo and name will applied for all.
3	End User License Agreement (EULA)	In order to access the Loree tool, user must read and agree the terms and conditions after verified the Canvas OAuth verification. This agreement contains scope, termination, external services, warranty, maintenance and support and limitations of liabilities.
4	K-12 Default Templates	For all the Admin users will get K-12 default templates on their accounts which is provided by CRYSTAL DELTA. They can share the K-12 templates to other departments by can't delete the default templates.
5	Loader functionality	New loader functionality has been implemented on image uploader, save templates and Fetching templates.
6	Dimensions	For heights, additional dimensions vh (and) % (and) px values has been implemented. So, users can change the elements heights on the above values instead of only % value.
7	User Guide	The user guide is available at user guide is available at https://crystaldelta.atlassian.net/wiki/spaces/WPBEUD/pages/23691423/Loree+User+Guide

4.2. Change request included in the release

4.2.1. Functional Change Requests

- Saving new templates for Admins modified for user based. It will fetch only their own templates when no filters applied.
- Sharing custom blocks has been temporary restricted for all the users. But still users can create and delete custom blocks.

4.2.2. Defect Fixes

- Invalid access token issues were fixed now.
- Template fetching related issues has been fixed.

- Tool scrolling and footer blank space related UI has been fixed. In order to apply the latest changes, you have to update the latest JavaScript and CSS styles in Canvas Instructure which is provided by Crystal Delta.

4.3. Resolved Client Bugs

- Content Duplication and Empty spaces related div issues after saving page has been temporarily resolved
- Video frames can be resized. For responsive videos use height values in vh (or) % (or) px values.

4.4. Open Defects & Known Issues

- Accessibility Checker reports needs to be improved on existing contents.
- For Arc Media, new login and password should ask when user changes their Arc password.
- Delete Block label values doesn't display when user translates tool to other languages except English.
- Drag and drop images were not uploaded in image uploaded modal.
