4. Release Details

4.1 Release Features

S. No	Features / Enhancements	Purpose
1	Canvas Modules	Loree allows the users to **Create, Edit, Delete, Publish and Unpublish** the Canvas Modules within Loree Modules list.
2	Update Templates	This feature allows the Loree users to edit the Templates. In order to edit templates, you have to right click on templates. For more details: https://crystaldelta.atlassian.net/wiki/spaces/WPBEUD/pages/98763553/Edit+Share+or+Delete+Templates **Note:** Only the authorised users will have this facility. It can be managed from Admin Dashboard Roles and Features section.
3	Flex box	Flex box CSS has been newly added under Style Manager. You can apply the Flex related CSS using this section. To get more info on Flex box feature: https://crystaldelta.atlassian.net/wiki/spaces/WPBEUD/pages/103743491/Style+Manager+-+Flex **Note**: Flex parameters works based on CSS3, and now Canvas not supporting CSS3 styles on their pages.
4	Accessibility Checker	The newly re-designed Accessibility Checker has been integrated within Loree Editor. It allows the users to find the accessibility related issues and allows them to fix it within Loree Editor. From the Admin console, this feature can be enabled or disabled. More info: https://crystaldelta.atlassian.net/wiki/spaces/WPBEUD/pages/23691423/Loree+User+Guide#Accessibility-Checker
5	Templates Management via Admin Dashboard	All the Templates will be fetched and displayed in Loree Dashboard. Admin of Loree Dashboard can rename, update category and can set the status of template visibility as ON/OFF under this section. By click on Edit icon, the above rename and update category functions can be performed.

S. No	Features / Enhancements	Purpose
6	Images as a Link	This allows the users to add Links on Images. By click on Images in Canvas, will redirect to the linked page.
7	Updated Contextual Help links	Contextual help icon for Devices, Extra, Quick Links and H5P section has been integrated.
8	Customised Fonts selection	On this release, custom font selection UI from dashboard has been implemented. Functionality will be covered in next release.
9	UI changes on Edit, Share or Delete Templates	The existing design for Share or Delete Template has been updated.
10	Updates on Enabling or Disabling features from Dashboard	Newly added features Accessibility Checker, Flex and Edit Template can be enabled or disabled from Admin console based on user enrolment.
11	Enable/ disable Templates	This feature allows the Admin to change the visibility status of ON/OFF the templates by using Admin console Template Management section.

By setting visibility "ON", will display the template in Loree Editor. Changing the status into "OFF", will disable the Templates from users view. |
| 12 | Renamed Global Templates | The existing "Global templates" section provided by Loree has been renamed as "Loree Template Pack-1". |
