Introduction

3.1. Purpose & Scope

This release is focuses on key enhancements and the additional features to the Loree tool which were requested by the various Loree Canvas LMS users. As these enhancements mainly focusing on Responsive contents, Dynamic tables, Edit on Canvas Assignments and Discussions, etc., For more details on the product features that forms a part of this release, refer section 4.

3.2. Release Version

Loree Builder Version 1904.4

3.3. Environment

1. Environment	Desktop web-based tool for Windows and Mac PCs / Laptops
2. Supported Browsers	Safari (Mac only), Chrome, Firefox
3. Pre-Requisites	Valid Instructure-Canvas license Valid Loree Admin console credentials

3. Release Details

4.1 Release Features

S. No	Features / Enhancements	Purpose
1	Dynamic tables	<p>This feature allows the users to create a dynamic table by providing the number of rows and columns.</p> <p>For now, it's enabled for all the roles. From the next release it can be managed via Loree Dashboard.</p>
2	Edit table properties	<p>By click on Table icon from the action bar on table element, it will navigate the users to edit the table properties. Users can insert, delete the rows and columns.</p> <p>It allows cell splitting, merging on both horizontally and vertically.</p>
3	Improved Responsiveness on Blocks	<p>Loree blocks were updated with more responsive support on Desktop, Tablet, Mobile portrait and Mobile Landscape.</p> <p>In order to apply more responsive on Canvas Pages, additional CSS should be added on Canvas themes.</p>
4	Edit Assignments	<p>Loree allows the users to edit their course assignments via Loree Editor Interface.</p>
5	Edit Discussions	<p>This feature allows the users to edit the Canvas course Discussions using Loree Editor Interface.</p>
6	Publish/Unpublish Assignments and Discussions	<p>You can publish or unpublish the course Assignments and Discussions via Loree. This will be automatically reflected in Canvas.</p>
7	Restricted removing templates when marked as Global Template	<p>Earlier, designers can remove the templates from My Templates section when the template was marked as Global template by Admin. Now the same has been restricted.</p> <p>For example, when a designer creates a new template and the same has been marked as Global by Admin via Dashboard, then designer can only able to Edit the template (if permission enabled from Dashboard).</p>
8	Customise the fonts list using Google fonts	<p>Admin's can customise the font family list via Dashboard. In Loree, more than 500 google fonts has been integrated.</p>

S. No	Features / Enhancements	Purpose
		In order to support google fonts in Canvas page, additional JavaScript needs to be applied in Canvas Themes.
9	Updates on Video/ Video with Caption Blocks	Alignment, Width and Height of the Video blocks are modified by default. Users can change the styles using the Style Manager properties.
10	Auto-collapse/ Expand on Simplified View for teachers	Auto-collapse functionality has been implemented on side panel sections for simplified view.
11	Enable/ Disable the Video Providers	Admin can enable or disable the video providers via Loree Dashboard.
12	Consistent button positioning and colours	Loree buttons position and colour has been updated.
