3.3. Environment

1. Environment	Desktop web-based tool for Windows and Mac PCs / Laptops
2. Supported Browsers	Safari (Mac only), Chrome, Firefox
3. Pre-Requisites	Valid Instructure-Canvas license Valid Loree Admin console credentials Updated XML configuration file

4. Release Details

4.1 Release Features

S. No	Features / Enhancements	Purpose
1	Sorting on Modules	This feature sorting the Modules and their items as per Canvas rendered view. The same canvas modules order will be displayed in Loree list.
2	Sorting on Images list	By default, the order of an images list will be sorted by last modified. Earlier, it's sorted as Name.
3	Renamed Full list	The text on Loree "Full list" has been renamed as "Modules". Canvas Modules can be fetched in Loree Modules.
4	Create New Page	This feature allows the users to create a new page on canvas using Loree pages list.
5	Version details on Loree Editor Interface	The current version of Loree will be displayed at the bottom of Loree Editor Interface.
6	Removed Arc Media	Earlier, Loree provided Arc media as one of the media providers for Video. Now this has been disabled by default. From the Admin dashboard, this can be enabled for users.
7	Removed Kaltura from Media Provider	The media provider Kaltura for video element has been removed from Loree tool because of internal update on Kaltura.
8	Removed Accessibility Checker	The tool Accessibility checker on top navigation panel has been removed now because of re-structuring.
9	Removed Lock and Unlock	Template restriction feature has been removed from Loree because of re-structuring.
10	Rename the Page	This allows the users to rename the canvas shell pages within Loree.
11	Role and Feature management	<p>This feature will allow the Admin of dashboard can fetch the user roles and Loree features. They can manage the roles by enabling or disabling it.</p> <p>These roles will be fetched from Canvas root account only.</p>

S. No	Features / Enhancements	Purpose
12	Enable or disable Loree features from Admin console	Admin of Loree Dashboard can enable/disable the Loree features based on the canvas roles. This has been yet to implement for Admins, simplified view and other roles except base types.
13	Clear formatting on pasting external contents	This feature allows the users to work on free-formatting while paste contents from external sources. When user copied content from external source like Word, Webpage, etc., and paste it in Editor window – it will clear the format of contents by default.
14	Contextual help icons for Simplified view	Now, the contextual help icons were implemented on simplified view.
15	UI changes on Editor Interface	The existing background for editor interface dropdowns were changed
16	Removed HTML Block from content blocks	HTML Blocks from Content blocks section has been removed now
17	Icon changes on Loree list	Replaced icons for Assignments and Discussions in Loree list view
