3.3. Environment

1.	Environment	Desktop web-based tool for Windows and Mac PCs / Laptops
2.	Supported Browsers	Safari (Mac only), Chrome, Firefox
3.	Pre-Requisites	Valid Instructure-Canvas license Valid Loree Admin console credentials

4. Release Details

4.1 Release Features

S. No	Features / Enhancements	Purpose
1	Global Templates	This allows the Dashboard Admins to enable/disable any templates as Global. So that it can be accessible by everyone on the same organisation. These global templates are accessing from templates section. For more info: https://crystaldelta.atlassian.net/wiki/spaces/WPBEUD/pages/98861206/Templates Note: Right click functionality has been disabled for Global templates.
2	Edit Global Templates	This allows the designers to edit the Global Templates. **Note**: Only the creator of the template can edit Global templates using My template section. Others can only use it.
3	New modal for Video Provider selection	Earlier, user has to select the Video providers from Component Settings view. Now it has been modified and the same workflow of images, you can upload videos using Select Video Modal. For reference: https://crystaldelta.atlassian.net/wiki/spaces/WPBEUD/pages/98894011/Asset+Manager
4	Upload Videos using Kaltura Provider	This feature allows the users to upload their local videos to use it in their Canvas courses. In order to upload Kaltura videos, it should be configured first.
5	Upload Videos using Loree Video Provider	This feature allows the users who doesn't configure any Kaltura account with Canvas, they can upload their local videos into Loree. That can be used in their course contents. You can upload MP4, MOV, FLV, AVI, 3GP formatted videos.
6	Centralized Images (Loree Images) for Global Access	Earlier the images were stored and fetched from Canvas course level. When another user trying to access global templates by using canvas images, it may get broken.

S. No	Features / Enhancements	Purpose
		In order to avoid the broken images issue, Loree will store all the Global templates images into Centralised storage. (Amazon S3 bucket service).
		By using these images, user can access all the global templates images in any course with no broken issues.
		Note: You can choose the image source providers either Canvas Images or Loree Images.
7	Ordered/ Unordered list	This feature allows the users to add ordered/ Unordered lists in their course contents.
		These list icons can be accessible from RTE tool bar.
8	Removed Loree Template Pack-1	Earlier, Loree has provided the Template pack-1 for users to play with designs.
		Now this has been temporarily removed from Templates section. Once it's enabled will be communicate.
9	Supported Flexbox CSS	Canvas currently not supports CSS3 styles. Loree has the facility to support flexbox related CSS in Canvas pages by using external Global CSS styles.
		Note: In order to support flexbox CSS, the global CSS file needs to be uploaded in Canvas themes.
10	Enable/ Disable Global Templates for Simplified View	This feature allows the Admin's to enable or disable the global templates for teachers via Loree dashboard.
11	Restricted templates sharing functionality	Earlier, Loree allows the users to share their templates to the departments. And now, the template sharing functionality has been restricted.
		By right click on My templates, you can either Edit or Delete the templates.
12	Edit the Linked Images	This feature allows the users to edit their already linked images.
13	Removed Department filter on Templates section	For Admins, Department filter option has been removed from Templates section.
14	Removed RTE toolbar for Quick Links	From 1904.2 release, Quick links text will not have RTE tool bar to Drag, Duplicate or Delete. User have to manually select and do that.

S. No	Features / Enhancements	Purpose
15	Enabling or Disabling Loree Features on Simplified View	Now the Loree Dashboard Admin can enable/disable the features for simplified teachers view.
