3. Pre-Requisites	Valid Instructure-Canvas license Valid <b>Loree</b> Admin console credentials

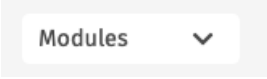

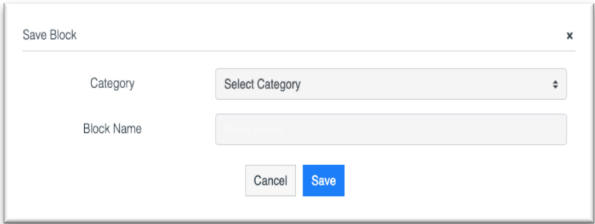

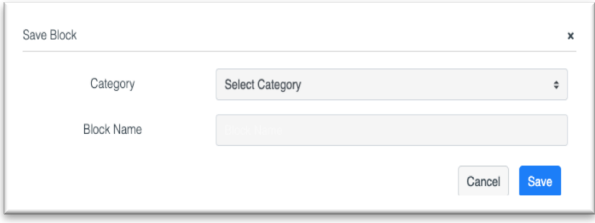

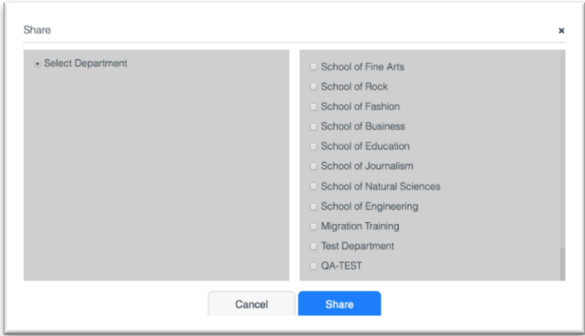

### 3. Release Details

#### 3.1 Release Features

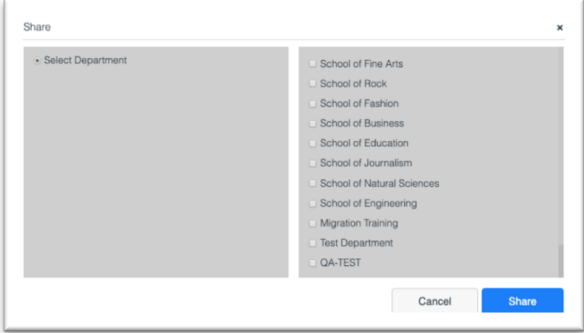

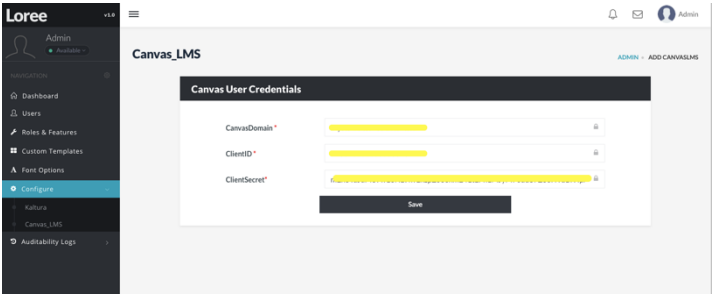

S. No	Features / Enhancements	Purpose
1	Activity Logs for Loree	<p>This allow the Admins of Dashboard can view the logs for Activities in Loree.</p> <p>For this release, we will display the Logs for following activities,</p> <ol style="list-style-type: none"><li>1. Logs for users who acknowledged OAuth verification</li><li>2. Logs for users who agreed End User License Agreement</li></ol> <p>Following details will be captured in this Loree logs,</p> <ul style="list-style-type: none"><li>• Timestamp (GMT)</li><li>• Canvas course ID</li><li>• User ID (as per Canvas)</li><li>• Username (as per Canvas)</li><li>• User Primary mail ID (as per Canvas)</li><li>• Log Stream</li></ul> <p>In order to view the logs, Admins should navigate to Dashboard -&gt; Auditability Logs -&gt; Loree Logs</p> <p><b>Sample screen:</b></p>  <p>The screenshot shows a dark-themed navigation menu. At the top, there is a header 'Auditability Logs' with a circular refresh icon on the left and a downward arrow on the right. Below this header, there are two menu items: 'Loree Logs' and 'Dashboard Logs', each preceded by a small circular icon.</p>

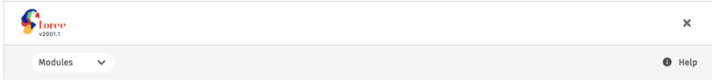

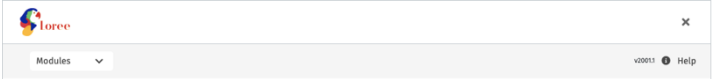

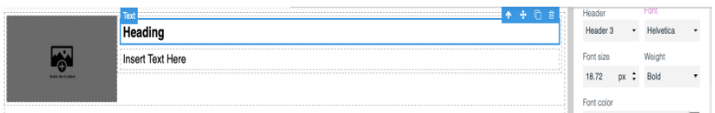

S. No	Features / Enhancements	Purpose
		 <p><b>Future Enhancement:</b> Will Capture all the actions performed in Loree by user and will display it in Dashboard.</p>
2	Activity Logs for Loree Dashboard	<p>This allows the Admins to view the logs for Loree tool. For this release we will show the activity logs for the following Dashboard Activities</p> <ol style="list-style-type: none"> <li>1. Logs for Admins who made changes on Custom Fonts (by click on Save will trigger the log)</li> <li>2. Logs for Admins who made changes on Roles &amp; Features (by click on Save will trigger the log)</li> <li>3. Logs for Admins who made changes on Custom Templates Logs will be shown by the timestamp and log message. This will be enhanced in the upcoming releases.</li> </ol> <p>For Custom templates log, this release we focused on Update on Template name, restoring templates, Enable or Disable on Global Templates.</p> <p><b>Sample Screen:</b></p>  <p>In order to view the Loree activity logs, Admin should navigate to Dashboard -&gt; Auditability Logs -&gt; Dashboard Logs.</p>

S. No	Features / Enhancements	Purpose
		<b>Future Enhancement:</b> Capturing all the logs when Dashboard admin perform any action in the Admin panel
3	Enhancement on Consistent buttons position and styles	<p>Existing buttons position and UI has been enhanced. All the buttons which are used in Loree modals were aligned to float: right and Loree home modules/pages view buttons styles are updated. The changes are:</p> <ol style="list-style-type: none"> <li>1. Published/ Not Published Icons for Modules <p>Before:</p>  <p>After:</p> </li> <li>2. Create Module Icon <p>Before:</p>  <p>After:</p> </li> <li>3. Nav Bar dropdown on Loree home page <p>Before:</p> </li> </ol>

S. No	Features / Enhancements	Purpose
		<p>After:</p>  <p>4. Position changes on buttons for Save block and Save Templates</p> <p>Before:</p>  <p>After:</p>  <p>5. Position changes on buttons for Share Block</p> <p>Before:</p> 

S. No	Features / Enhancements	Purpose
		<p>After:</p> 
4	<p>Enhancement on Enabling/Disabling Loree features</p>	<p>The existing blocks Dynamic Tables, Header and List blocks can be enabled/disabled by Admin via Loree Dashboard.</p>  <p>Based on Canvas roles, Admin can enable or disable it. When it's disabled, the relevant canvas role user will not access the disabled Loree feature.</p>
5	<p>Enhancement on Custom Variable Integration</p>	<p>Earlier, Loree Custom variables can be integrated via Dashboard. But the same cannot be viewed/ modified by Admin.</p> <p>From this release, Loree custom variables can be viewed by Admin and the same can be modified in Dashboard.</p> 

S. No	Features / Enhancements	Purpose
		After click on "Save" will update the Loree custom variables. When any new client ID and secret updated, first time it will ask OAuth verification on Loree tool.
6	UI changes on displaying version control on Loree modules/pages view	<p>Displaying Loree version number on Loree Modules/Pages has been updated.</p> <p>Before:</p>  <p>After:</p> 
7	Enhancement on Icon + Heading + Text block	<p>The existing block "Icon + Heading + Text" from Special Block section has been enhanced by its default Heading block.</p> <p>Header block on this section changed from &lt;paragraph&gt; to &lt;header3&gt;tag by default. So that user can change the header content type by selecting the Header on this block.</p> 

## 3.2 Change requests included in the release

### 3.2.1 Functional Change Requests

- Auditability Logs integration with Loree and Dashboard
- Consistent button position and styles

### 3.2.2 Defect Fixes

- Fixed the issue on missing HSTS Protection
  - This will ensure that the web browser only communicate with the site using HTTPS. HSTS addresses the SSL-stripping man-in-the-middle-attack.
  - **Status:** Fixed
- Fix the repeated OAuth Page error when open Loree on multiple tabs
  - When user open's Loree on multiple tabs for OAuth verification and by click authorize on single tab, user should refresh/reload the other tabs. By click on Authorize in another tab will trigger the page error issue.
  - Loree suggest the users to verify OAuth and EULA pages on single tab in browser.
  - **Status:** Fixed
- Restricted template name for maximum of 255 characters
  - Defect Scenario: Earlier, Loree allows the users to enter more than 255 characters for Custom Template name. After creation the template doesn't fetch in Templates section.
  - We have restricted the users to provide more than 255 characters for templates.
  - **Status:** Fixed

### 3.3 Resolved Client Bugs

### 3.4 Open Defects & Known Issues

- Localization on menu bar not perform any action – **Open**
  - **Defect Scenario:** In Designer view, when user changes the language from one to another it didn't perform any action.
- H5P contents not fetching/ unable to create new content – **Open**
  - **Defect Scenario1:** After creating new H5P contents in Admin view, it's not fetching.
  - **Defect Scenario2:** Only on Designer role, H5P icon in menu bar didn't perform any action by click it on.
- Logs for template category and update template not shown expected value- **Open**
  - **Defect Scenario:** When Admin click on Update template icon from Admin dashboard with no changes will display the mismatch logs
  - When Admin update the template by changing the category doesn't display the original log
- Preview on Loree doesn't mirror the Canvas rendered page view – **Open**
  - **Defect Scenario:** The preview on Loree Editor interface and Canvas page rendered view both are not same.
  - This issue happens when user applies the background color in RGB values, Style issues on Headers and List.
- Flex properties on style manager is not supporting in Canvas page. – **Open**
  - **Defect Scenario:** When user applying Flex properties like flex-direction, flex-alignments will not behavior as expected.
- Tablet view of Loree Editor Interface not same as Tablet device. **Open**

- **Defect Scenario:** The tablet view on Loree Editor Interface doesn't mirror what Tablet devices rendered view.
- Mobile portrait styles not same as other devices in Loree Editor Interface. **Open**
  - **Defect Scenario:** When user selects the Mobile Portrait view and applying styles won't reflect on Desktop view.
- Unable to Update/ Update and Exit the templates when another template dragged and dropped into Editor Interface. **Open**
  - **Defect Scenario:** When designer edit the existing templates and drag another template into the existing one for update, will not perform any action
- Responsiveness should be improved on Grid and Dynamic tables. **Open**
  - **Defect Scenario:** Responsiveness on Tablet, Mobile Portrait and Mobile Landscape view has to be implemented for table blocks.
  - By drag and drop any other blocks within Table cell, will triggers the responsive issue
- Pagination on Loree Modules/Pages not yet fixed. **Open**
  - **Defect Scenario:** To get Entire Pages, modules, Images, Assignments, Quizzes, Discussions from Canvas, Pagination must be implemented. Otherwise Loree will not fetch the entire contents from Canvas course.
- Announcements list are not fetching on Quick Links. **Open**
  - **Defect Scenario:** None of the Announcement items were fetched on Quick Links. User will get glitches when Loree tries to get Announcement list from Canvas.
- Background Image on Background section not reflected in Canvas after Save and Exit. **Open**
  - **Defect Scenario:** When user tries to apply background image for any block using the Background section, it reflects in Loree. But after Save and Exit will removes the images from Course content.
- Unable to delete the nested list block – **Open**
  - **Defect Scenario:** When user drag and drop list block in the existing List, the nested lists cannot be removed or duplicated
- Style and alignment issues on List elements - **Open**
  - **Defect Scenario:** When user applies font styles for list items by selecting the parent list tag will not behavior as expected.

### 3.5 Important Suggestions:

- When admin changes any template as Global, the templates list should be refreshed to get the updated template list.
- Since Canvas not supporting RGB values, Loree suggest the users do not use RGB values for the color code.
- Loree suggest the users that do not apply background image for any block by using Background section in the side panel.
